

Internationale Kulturbörse Freiburg – The Exhibitor Catalogue **The yellow pages of the art and culture industry.**

Every year again the new exhibition catalogue of the Internationale Kulturbörse Freiburg is released several weeks before exhibition start.

As reference book, as data base of thousands of addresses and contacts, for phone numbers and mail addresses the catalogue is seen in the scene as the yellow pages of the cultural industry. Therefore it should be on every promoter's desk.

In here all artists, agencies, service providers or promoters are represented who are using the exhibition as a gateway platform as an exhibitor, as an advertiser or with a live performance. For many this is a vital investment in their professional or semi-professional career.

The catalogue is sold before and on the event for 35 EUR a piece.

You may order it under the following link:
